

Safety in the making!

Boost your understanding of safety in urban planning with our "Safety in the making" course! Grounded in Swedish and Nordic evidence from two key books (Safe Cities by Ceccato, 2024 and Situational Crime Prevention by Thodellius & Ceccato, 2022) we will combine theory with practical exercises, including role-play (charettes). You will also have the opportunity to create your own project, applying what you have learned in the course. Aligned with 2030 goals, our course adopts a systemic perspective within situational crime prevention.

The course is offered in two versions:

- [AG1152 Safety in the making 7.5 credits](#)
- [AG115V Safety in the making 2.5 credits](#)

Course responsible: Vania Ceccato
(vania.ceccato@abe.kth.se)
